TO: Users of the Region 6 Screening Value Table and Text

The January 2004 revisions include minor changes from the December 2003 version of the Region 6 Human Health Screening Value table and text based upon comments received shortly after publishing the documents on the web. These changes are summarized below.

Screening Table- The CAS number for o-nitrotoluene was corrected.
Background Document - The Toxicity Value Section was revised to clarify that the PPRTV is available on the intranet.

If you find any errors in the text or in the screening table, please bring it to my attention by sending an email to overstreet.cheryl@epa.gov.
